■ Custom-Striped Electronic Cables

General Cable now offers **custom striping capabilities** on Carol® Brand Electronic products. Co-extruded stripes are available on both PVC jacketed cables and PVC insulated conductors. They are more uniform compared to ink-printed stripes and will not rub off because they are an integral part of the cable construction. Our striping capabilities are available on:

- Conductors as small as 0.060 diameter (18 AWG)
- Jacketed cables with diameter up to 0.625

When you have a need for custom-striped cable think of Carol Brand Cables first. Remember, you can always ***Demand Better... Expect More™*** with General Cable Carol Brand Electronic Cables. We manufacture over 1,300 standard electronic cables that we can ship direct from stock, and we have the technical staff and design expertise to meet any custom cable requirement.

Note: Minimum runs may apply.

For more information, contact your local General Cable representative.
